

PALEO
DATA

ONSHORE SOUTH LOUISIANA Database Package

MOST EXTENSIVE COMPILATION OF SOUTH LA. BIOSTRATIGRAPHIC DATA

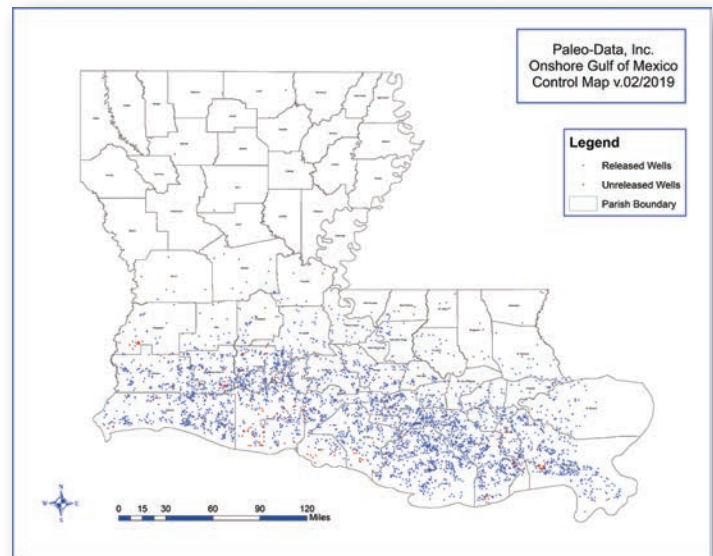

This data is available for license, providing companies with a key reference source for:

- Correlation.
- Trend analysis.
- Seismic interpretation.
- Regional stratigraphic perspective.

The majority of this information was generated over a 58-year period from Paleo Data Inc. staff, providing consistency of interpretation and uniform nomenclature.

PACKAGE DELIVERABLES

- Digital database files of paleontological summary data on over 9,000 well reports from Onshore South Louisiana.
- Full paleo reports with raw sample data in PDF file format.
- One year of unlimited support for data interpretation, assessment and correlation.
